### *Non-Evaluative Comments*

The current public library in Lincoln, a Carnegie library built in 1909, will not be replaced but will become a branch library after the new main library is built. The Bond Act Application Form asks for the square footage and dates of construction and renovation for library buildings that will be replaced or improved. Because the current library will continue to operate, the applicant has not completed those sections in the Application Form, and it is considered to have no existing library.
